

SPLASHJET'S UV PLUS PHOTO DYE INKS FOR PHOTOLABS & LARGE FORMAT PRINTERS

Splashjet's UV Plus Photo Dye Inks for large format printers enable you to achieve excellent resistance to ink fading and enable your prints to last for a long time. Our color plus ink technology ensures unmatched color brilliance with depth and clarity. Whether it is medical imaging printing, backlit printing, or indoor signage printing, the vibrancy of your prints does not fade away even after being exposed to UV rays or sunlight.

KEY FEATURES

High Fade Resistance

Enhanced Print Life

Photo Realistic Prints

Color Plus Technology
