

# DTF PIGMENT INK

## FOR DIRECT TO FILM PRINTING

Splashjet brings you a range of premium inks for all your DTF applications. Compatible with all popular printers and films, these inks provide excellent wash and rub characteristics while ensuring a softer hand feel and good stretchability. It has good resistance to soap and water, has a high rate of adhesion and transfer, and prints consistently well. Being printer-specific, you can now get excellent prints without worrying about nozzle clogs. DTF transfers can be applied on a variety of substrates such as cotton, polyester, denim, and blend fabrics.

### KEY FEATURES
